Ring Doorbells Technology Introduced to Warren-Forest, Southern Erie County Residents to Provide a Virtual Opportunity to Interact with Area CareerLink® Staff

Earlier this week Ring Doorbell technology was placed at the Warren County Chamber of Business & Industry (WCCBI) 308 Market Street, Warren, PA 16365. This technology will provide the ability for local area residents to interact and conduct virtual meetings with the mobile Talent Development Specialists (TDS) at the CareerLink® offices.

Ring Doorbells will bridge the gap to aid job seekers that do not have access to internet or means to travel to the Erie or Oil City offices. Job seekers can set up an appointment and meet with TDS staff virtually to aid the job seeker in:

- Determining your skill sets
- Plan a career path that's right for you
- Polish your interviewing skills
- Connect with training programs to gain new job skills
- Build a resume
- Find and get the right job for you!

To schedule a meeting with TDS staff using Ring Doorbell, visit the WCCBI at 308 Market Street, Warren, PA 16365 at the back entrance near the parking lot.
