

## **PENN COLLEGE** ■

**Enrolling Now!**

**New program starts  
January 2026**

*Scan for Registration Form*

**Pennsylvania College of Technology will offer the Advanced Manufacturing Pre-Apprenticeship (AMP) Program for high school juniors and seniors beginning January 2026.**

The four-month AMP program is a career exploratory program that provides students with an understanding of the foundational technical training and career paths in the 21st-century manufacturing industry.

AMP Pre-apprentices . . .

- Learn foundational technical knowledge and skills that will prepare them for entry-level employment in a variety of manufacturing occupations
- Earn the Certified Manufacturing Associate industry certification
- Network with manufacturing employers in a variety of fields
- Are eligible to enter a Penn College registered apprenticeship program (Mechatronics, Industrial Manufacturing Technician, CNC Operator) in partnership with a manufacturing employer

Program Details:

- AMP Schedule: January 2026 – May 2026
- Instructional Core: 27 Online Learning Modules through Tooling U/SME (self-directed)
- 3 in-person, hands-on lab days at the Penn College Campus or another designated location
- Industry Day – Your opportunity to meet Manufacturing Employers
- Preparation to earn the Certified Manufacturing Associate industry certificate from the Society for Manufacturing Engineers

***For more information, contact: Alexa Boatman or 570-327-4775, x7317***

*The AMP program is free for schools and students. AMP is fully underwritten by grant funds from the U.S. Department of Labor.*
