How to Register:

RSVP by March 5th.

Scan the QR code and fill out the form.

TWO TRAINING PATHS. ONE FUTURE YOU CAN BUILD.

ACUTEC

Precision Aerospace, Inc.

AN EMPLOYEE-OWNED COMPANY

At Acutec, your future isn't one-size-fits-all. We match your strengths, interests, and goals with the training path that fits YOU. Whether you thrive in high-tech aerospace manufacturing or want to fast-track into defense-ready skills, Acutec sends you to one of two elite programs designed to launch your career fast.

Your Future: Engineered

Danville, VA- ATDM is a fast-paced, hands-on training program that takes motivated learners from zero experience to job-ready in just a few months. Built to meet the urgent demand for skilled defense manufacturing talent, ATDM trains students on real equipment, with expert instructors, in a high-tech environment that mirrors the industry they'll step into.

Meadville, PA - ALIC is where hands-on learners level up fast. You'll train on real aerospace technology, learn advanced manufacturing skills, and build the foundation for a long-term career, all without the cost or wait of a four-year degree. ALIC gives you the tools, the coaching, and the confidence to step into high-tech roles that keep the world moving.

✓ **Paid training** ✓ **Real skills** ✓ **Real advancement**

Your future is bigger than a classroom — come see it for yourself.
Join us at Try A Trade Day and get a real, hands-on look at the opportunities waiting for you.
